**LONG AN
FRIENDLY & EFFECTIVE
INVESTMENT DESTINATION**

LONG AN ATTRACTIVE DESTINATION FOR INVESTORS

Long An province owns an important strategic position, with many strengths and enough conditions converging to offer great potential for a diversified and growing economy. Long An is at the forefront of opportunities to attract investment in all areas: the public sector, industrial, urban development, trade services, tourism, agricultural, and high technology industries. It will over time become the service - industry - logistics center for the Mekong Delta region.

- Location: in the Mekong Delta region.
- Population in 2021: 1,725,752 people
- Area: 4,494.93 km²
- GRDP in 2021: 80.08 million VND (3,485 USD / person/year)

✓ Connected location:

As the gateway connecting the Mekong Delta region with Ho Chi Minh City and the Southeast provinces; trade with Cambodia through Binh Hiep International Border Gate; has great potential for sea transport with Long An International Port.

✓ Strategic planning:

Planning Long An province in the period of 2021 - 2030, the vision to 2050 is a realistic plan with a long-term vision. It will help Long An maximize the potential, exploit the advantages and contribute to developing its own identity. Through this Vision Long An continue to reach out and develop strongly.

✓ Inter-regional transportation network:

Transport infrastructure connecting industrial zones and clusters with ports; and interregional connection for localities in the Mekong Delta with Ho Chi Minh City. Connecting Ho Chi Minh City and the Southeast region helps create smooth processes of transporting and circulating goods, saving costs and time.

✓ Infrastructure of industrial zones and clusters:

The total area planned for industrial development is about 15,000 hectares with 37 industrial parks and 59 approved industrial clusters.

✓ Labour Resources:

Young, dynamic workers are trained in vocational training or colleges and universities to meet the labor needs of enterprises. In addition, Long An easily attracts high-quality labor and experts from Ho Chi Minh City. HMRC is coming to work.

✓ Rich nature:

Long An has 2 main rivers, Vam Co Dong and Vam Co Tay, which bring silt to create a diverse ecosystem of flora and fauna. This provides opportunities for developing types of ecotourism and agricultural tourism, as well as providing raw material zones for the development of processing industries.

✓ Investment environment:

Open, transparent, friendly, effective. The Provincial Government always seeks to create favorable conditions and accompanies investors throughout the process of understanding and implementing projects and expanding production and business activities in the province.
